PSAC NCR A/REVP Activity Report for period Sep 1-Dec 22, 2017 NCR Regional Council Meeting — Winter 2018

The last 3 months I have worked with Greg on a variety of small projects, many of which are in the planning and discussion phase, and will most likely take fruition over the term.

Greg and I have had a few meetings to discuss, the executive council retreat, AEC, NBOD and the OFL conference in Toronto. We also discussed the various committees, their goals and purpose. Over the next while, I will be thinking of ideas and ways that may be able to help the committees increase members' attendance at meetings and events, as well as working collectively within their ranks, but also with other committees in the NCR.

In November, I got the chance to run the election for the ORWC AGM. I was honored to be asked by the Co-Chair of the committee and even more so that the REVP had the utmost confidence in me taking over for him in that capacity while he was away.

December was the PSAC National Leadership training. I got the chance to lead the regional caucus with Elisabeth Woods in Greg's absence.

Over the next few months focus will be on the national day of action for phoenix in February, an event that I will be taking part in.
