

Report of MASC Chair
January 1st to March 31st

I was appointed to the Chair position on January 30th from the Co-Chair position when the Chair, Alan Craig was elected to chair the CRAPO committee.

We have had meetings scheduled on February 8th and March 8th for this cycle.

The February meeting was only attended by myself and the PSAC Resource person.

In the March meeting, the request from the AAC committee for funding and other types of help were discussed briefly and we reached out to that committee for more information in what areas they need assistance. We hope to have that discussion at the April 11th meeting.

I attended the NCRC Executive Retreat at Montebello from March 16th to 18th. The training seminar on the Saturday was very intense and was a good working experience. The seminar should have been spread out over at least another day, in my opinion. The topics for the training were very helpful and a few lessons were learned that I can bring back to put into usage and both the committee level as well as within my local as well. The afternoon of the 18th was the monthly executive meeting as well for the Executive.

The Men's Action Support Committee meets the second Thursday of the month at 233 Gilmour.
