

**Mike Chartrand - Member at Large Report**  
**NCR Council meeting**  
**January 1, 2017 – March 31, 2017**

The details of my activities for the past quarter year, January 1, 2017 to March 31, 2017, are as follows:

I was nominated for a member at large of the NCR at the May 2016 AGM. I gladly accepted the nomination and was pleased to receive an overwhelming support and happily accepted to fill the position for another two years. As a member of the NCRC it is incumbent upon me to have a portfolio and as there was a newly “Stewards committee” formed I immediately offered to champion this cause. The Stewards committee has met several times over this period and we have outlined our mandate. On November 28, 2016 we had our first learning activity with the subject matter being “Mental Wellness in the Workplace. The event was well attend and received rousing support. Those in attendance were very pleased with the presentations from our three guest speakers and the open question period, in fact we had to cut the question period short due to time restraints.

The committee has scheduled two more panel discussions, however, the one scheduled for February was suspended as a result of ratification voting so is being pushed back until the spring. The committee has reached out to the regions RVPs to survey what they need from us (the NCRC Stewards Committee). The committee is also working hard to update the steward’s corner found on the NCR website. The committee is very encouraged by the show of support in the region and hopes to see many more of you at our next event. The committee has set a lot of goals and objectives and as the champion I fully intend to meet all goals and objectives during my term.

As an elected member at large I have committed to represent this region to the best of my abilities. I have and will continue to attend rallies and participate and am fully engaged in discussions at council meetings. I continued to serve as an executive of the NCR and participated in varied discussions throughout my term and will continue to serve as an executive

and fulfill the requirements of the position until the end of my term and beyond.

In solidarity,

Mike Chartrand
