

OAC Report
For NCR Council
October, 2015

The council is working on the NBOD action plan in collaboration with the NCR Executive Council. The past few months saw the OAC involved in a number of events supporting other Unions: Unifor/ODLC/OPSU in rally's in the city. OAC was also working on the get out to vote campaign using a phone tree to get the message out to members. We participated in the Labour Day parade and had a good turn out of about 60 members. The media gave us great coverage showing our float and commenting on our political concerns. The next few weeks will be busy and OAC will be counting on all members to talk about the election and express our concerns about the future government to come. Please register to assist in the outreach being organized to connect with members and the public about the importance of voting in this election. Thank you to all who have and will be helping with the OAC / NCR election activities the clock is ticking and we are making a difference.

In Solidarity
David Lanthier
Chair OAC
