

Pride Committee Report

The AGM was not held in December as planned. We met to discuss the fact that there are not enough members on the Committee. Therefore, we decided to hold only four meetings a year. We will be focusing on recruiting members by: participating in community groups, networking with other unions and getting involved in the community. Our objective is to diversify our community and involve our allies. This Committee is more relevant than ever because there are more battles to be fought on all fronts. Look at what is going on in the US. It's a real fiasco and our community is feeling the impact of it. Therefore, we will pull out all the stops to find more members, either among our allies, in community groups or through regional Pride committees.
